

Workplace Hazards in Butcher's Shops

This fact sheet is for students undertaking work experience programs, and for their host employers. It can be used as a tool to assist with task planning, and to develop appropriate induction, training and supervision to minimise any risk to students while they are 'at work'.

Students must be given instruction, and must be supervised at all times. Consideration must always be given to hazards when allocating tasks. If any risk exists, students must NOT undertake the activity.

Hazard	Possible Harmful Effects	Possible Employer Action to Prevent Injury / Illness	Preventative Action Students Can Take
Mincing machines, powered cutting equipment, hooks	Cuts, laceration, amputation	Students must NOT use powered cutting equipment	Students must NOT use powered cutting equipment
Knives (including hand-held vibrating knives for de-boning; circular saws)	Cuts, laceration, amputation Musculoskeletal disorders, including tendonitis and carpal tunnel syndrome	Students must NOT use knives or powered cutting equipment	Students must NOT use knives or powered cutting equipment
Slippery floors	Slips or falls	<ul style="list-style-type: none"> ◆ Provide floor mats ◆ Provide equipment to clean up spills quickly 	<ul style="list-style-type: none"> ◆ Wear non-slip shoes ◆ Clean up spills quickly
